Copyright Year: 2022 Publisher: Grupo de Estudos em Lógica da UFRN License: CC BY Para Todxs: Natal é um livro didático completo sobre lógica formal. Ele aborda noções fundamentais como consequência lógica e validade de argumentos, a sintaxe da lógica proposicional verofuncional (LVF) e a semântica de tabelas-verdade, a sintaxe da lógica de predicados de primeira ordem (LPO) com identidade (interpretações de primeira ordem), traduções (formalizações) do português para LVF e LPO, além de sistemas de prova em dedução natural (estilo Fitch) para LVF e LPO. Também são abordados alguns tópicos mais avançados, como a correção da LVF e uma introdução à lógica modal. O livro está disponível em PDF otimizado para visualização em tela, com links coloridos. Todos os arquivos fonte em LaTeX estão disponíveis, e podem ser também utilizados para gerar uma outra versão PDF otimizada para impressão. Posteriormente, versões especiais para visualização em tela de dispositivos eletrônicos, versões em folha preta, uma versão com fonte especial para dislêxicos, além de um caderno com as soluções dos exercícios também serão produzidos. Um editor/verificador de provas para o sistema usado no livro está disponível online em andersonnakano.hyperphp.com, em versão traduzida ao português por Anderson Luis Nakano do editor original disponível em Open Logic Project.

It covers key notions of logic such as consequence and validity of arguments, the syntax of truth-functional propositional logic TFL and truth-table semantics, the syntax of first-order (predicate) logic FOL with identity (first-order interpretations), translating (formalizing) English in TFL and FOL, and Fitch-style natural deduction proof systems for both TFL and FOL. It also deals with some advanced topics such as modal logic, soundness, and functional completeness. Exercises with solutions are available. It is provided in PDF (for screen reading, printing, and a special version for dyslexics) and in LaTeX source code. The book progresses systematically while placing key ideas and thinkers in historical and contemporary context. Central topics include the analysis of knowledge, the nature of epistemic justification, rationalism vs. empiricism, skepticism, the value of knowledge, the ethics of belief, Bayesian epistemology, social epistemology, and feminist epistemologies. Whether for establishing or deepening one's knowledge of the region, these fundamentals are important to know. The languages, cultural, religious and sectarian communities of the region, and selected turning points and influential people in history are starting points for gaining an understanding of the diverse contexts of the region. It is based on introductory and graduate courses on the contemporary Middle East, which the Center's director, Dr. Alam Payind, has been teaching for the past 30 years. The book's co-author, Melinda McClimans, has taught these and other courses with him, as well as her own for the past 15 years. The material is intended to engage with diverse – even conflicting – cultural and historical perspectives, and ways of perceiving both Middle Eastern and world history from perspectives within the region. It is not intended to reinforce a monolithic or matter-of-fact perception of the region. For this and many other reasons, images are an important aspect of the knowledge presented. Each chapter starts with links to its image galleries, along with other visual aids and key elements. In this text we discuss topics ranging from "Are Humans good by nature?" to "Is there a God?" to "Do I have the right to my own opinion?" Philosophy is the study of wisdom, and can emerge in our conversations in social media, in school, around the family dinner table, and even in the car. The text uses materials that are 2,500 years old, and materials that were in the news this year. Wise people come in all shapes and types, and from every culture on earth. We have poetry and folktales, sacred writings and letters. Dialogues and interviews, news columns, Ted Talks, YouTube recordings and even comedy are all a part of the content in this text. You will be most successful reading this on line. The formatting in the downloadable versions is not wonderful. There is work being done by the software, but in the meantime, you will want to use it by clicking here on "read book".
